

Nursing Facility Definitions

Nursing facility/Nursing home — An institution that provides organized and structured nursing care and service, and is subject to licensure under Health and Safety Code, Chapter 242. The nursing facility may also be certified to participate in the Medicaid Title XIX program. Depending on context, these terms are used to represent the management, administrator, or other persons or groups involved in the provision of care to the residents; or to represent the physical building, which may consist of one or more floors or one or more units, or which may be a distinct part of a licensed hospital.

Skilled Nursing Facility/SNF — A skilled nursing facility or distinct part of a facility that participates in the Medicare program. SNF requirements apply when a certified facility is billing Medicare for a resident's per diem rate.
