

CARTPO 2008 Call for Projects

2008 Project Scoring Guidelines

County's submitting regional projects for CARTPO's consideration will have the opportunity to make a 12-minute presentation to CARTPO at the scoring meeting on December 5, 2008. Presentations should address each of the scoring criteria listed in bold below. Each presentation will be followed by a 5-minute question and answer period. CARTPO Voting Members present at the meeting will then score the projects utilizing the following scoring criteria:

Local Support and/or Participation - Is the project politically supported by local officials, regional groups, etc? What percentage (if any) of the total project cost can be funded and/or matched by local governments?

- Little or no political support and/or local funding (0-3)
- Some political support and/or local funding (4-7)
- Substantial political support and/or local funding (8-10)

Economic Development Impacts - Will the proposed improvement increase economic development opportunities or improve productivity and efficiency? How will it accomplish this? Will it improve upon the existing quality of life, e.g., have a

- Little or no economic development impacts (0-3)
- Some economic development impacts (4-7)
- Substantial economic development impacts (8-10)

Ease of Implementation – How difficult will it be to acquire the right-of-way necessary for the proposed improvements? Are there any outstanding environmental or engineering requirements? What are its limitations?

- Major project limitations (0-3)
- Some project limitations (4-7)
- Minor project limitations (8-10)

Regional Impact – What transportation impacts will the proposed improvement have on other cities and counties in the

- Little or no regional impact (0-3)
- Some regional impact (4-7)
- Substantial regional impact (8-10)

Safety Considerations – Are there safety considerations that will be addressed by this project?

- Little or no safety considerations (0-3)
- Some safety considerations (4-7)
- Substantial safety considerations (8-10)

Current and Projected Traffic Volumes – How high are the peak traffic volumes compared with other traffic counts in the

- Low traffic volumes (0-3)
- Medium traffic volumes (4-7)
- High traffic volumes (8-10)

A quorum is required to score the list of regional projects submitted to CARTPO for consideration. A quorum exists when at least one voting member from six (6) of the ten (10) counties in the CAPCOG region is present. If a quorum is present with scoring the Call for Projects, the average score of the Voting Members from each county is summed and divided by the total number of counties that voted. Voting Members must abstain from scoring projects which exist within the county they represent. The list of projects submitted for evaluation is prioritized according to the average score of the counties present and represents the act of CARTPO.
