**Example Local Government Big Push Resolution**

A RESOLUTION OF \_\_\_\_\_ TO IMPLEMENT EMISSION REDUCTION ACTIONS TO ASSIST IN CLEAN AIR EFFORTS AND TO MAINTAIN THE AUSTIN – ROUND ROCK METROPOLITAN STATISTICAL AREA (MSA) DESIGNATION AS “ATTAINMENT” IN REGARDS TO GROUND LEVEL OZONE STANDARDS

*Whereas,* The Citizens of \_\_\_\_\_ recognize the value of and are conscious of the need for clean air; *and*

*Whereas,* New ozone standards as promulgated by the US Environmental Protection Agency expose the Austin-Round Rock MSA and its citizens to possible designation as a non-attainment area under the new standards; *and*

*Whereas,* Concerted effort to reduce ozone forming emissions by the citizens, communities, schools and industry in \_\_\_\_\_ during the April through October ozone season will help preclude the region from being listed as non-attainment for 2009 and future years; *and*

*Whereas,* A designation of non-attainment will inhibit local flexibility in planning and development and create negative economic impacts to the citizens of \_\_\_\_\_ for up to twenty years.

**Now, therefore, be it resolved by the \_\_\_\_\_ :**

That \_\_\_\_\_ affirms its commitment to helping reduce ozone forming emissions by implementing actions that are accepted by TCEQ in line with existing reduction measures and agrees to assist in public awareness and outreach on the need for reduction measures to help voluntarily secure an ongoing designation of “in attainment” under the National Ambient Air Quality Standards for Ground Level Ozone.

Resolved, this \_\_\_\_\_ day of \_\_\_\_\_, 2009.
