Our Environmental Law Enforcement Pocket Guide can be viewed on your iPhone.

We have posted the file on our website in an EPUB format. This is a file type that can be read using iBook readers.

While there are several apps on the iPhone that you can use for this (including iBooks and BlueFire), we have included instructions to use the "Stanza" app to access the file from our website and use it on your iPhone.

- Download the "Stanza" app on your iPhone
- Once downloaded, go to the program and click "get Books" at the bottom
- At the top, select "shared"
- Click "edit" or plus sign on the top right
- Click "Add Book source" and select Web Page under second blank
- Under name, enter whatever you would like to name this book, under URL enter <http://db.tt/JahWXp1/>
- Click "save" then "done"
- Then you can click on the name of the book and it will load

We also have a limited number of physical guides available. Please contact the RETF Coordinator for info on these. You can find the contact info here:
