

## **REGISTERED NURSE CONTRATOR – CAPABLE Project SCOPE OF WORK**

### **Responsibilities**

- Utilize motivational interviewing techniques to conduct participant interviews and identify/prioritize issues related to medications, pain, depression, strength and balance, primary care provider communication, and other topics.
- Encourage clients to identify target areas they wish to address. Engage clients in problem solving to identify behavioral and environmental contributors that may impact function.
- Document clients' own goals in up to three Action Plans.
- Coach and guide clients in building self-efficacy and confidence.
- Reinforce brainstorming techniques, strategic thinking, and more independent problem solving to promote the ability to live at home and in the community.
- Document visits according to clinical, administrative, and funder guidelines.
- Assist with reporting grant deliverables and outcomes as required by AAACAP.
- Assist in developing guidelines to promote compliance with health-related laws, rules, and regulations.
- Communicate and coordinate with the CAPABLE RN and AAACAP staff.

### **Required Qualifications**

- Ability to work within a collaborative, client-directed model
- Willingness and ability to implement a protocol and balance with clinical judgment
- Associate's degree in nursing from an ACEN (Accreditation Commission for Education in Nursing) or CCNE (Commission on Collegiate Nursing Education) accredited college or university
- Texas BON Licensure
- At least one year experience as a licensed registered nurse

### **Preferred Qualifications**

- Experience with older adults and in-home care
- Bilingual in English and Spanish
